

Local tourism notes (sample)

Yarn Retreats

Getting there and looking around

This sample stands in for a local tourism brochure. For an Australian retreat, upload the visitor guide for the town: how to arrive, a map, markets, and the walks that fit around studio days. For a retreat hosted overseas by this Australian business, upload the local guide for that place as well.

Keep it practical

Guests travelling from other countries need the airport or station, a note on the season, and a reminder to arrange their own travel insurance. The ticket does not include flights unless the retreat page says it does.

Replace this file

Delete this sample once the real tourism PDF is uploaded. You can keep several tourism documents, one for each place you use.
